1.1 Introduction

In the present scenario of competitive Banking, excellence in Customer Experience is the most important tool for sustained Business growth. As a service Organization, Customer centricity is our prime focus. We believe that providing prompt and efficient service is essential to retain existing customer. The bank follows a holistic approach towards setting up service standards and continuously improvising customer experience based on market practice as well as customer feedback across multiple channels.

The bank aims to ensure quick and effective handling of customer grievance, as well as prompt corrective & preventive action (including correction of the process, wherever required) in order to avoid recurrence of grievances.
